Strategic location. Unparalleled results.

We have over 500,000 square feet of indoor warehousing space and 16 acres of secure outdoor and trailer storage at our facilities in Flint, Michigan. Our strategic location provides easy access to metro areas throughout the Great Lakes Region and Eastern Canada. We maintain additional space at partner facilities throughout the United States. Our secure, state-of-the-art facilities are equipped with the web-based inventory management tools that provide seamless integration with many of the most popular accounting, order entry, and shipping management programs.

NORTHGATE GIVES YOU PEACE OF MIND WITH SECURE STORAGE AND STATE-OF-THE-ART TRACKING.

- + **Safe and Secure Facilities:** Our facilities are certified, secure, and insured. All of our indoor and outdoor storage is gated, alarmed, and equipped with surveillance equipment to protect your valuable assets.
- + **Web-Based Inventory Control:** Our warehouse management system uses bar code scanning equipment, real-time radio frequency (RF) technology and web-based tracking tools that so you can track every part.
- + **Comprehensive Services:** Our services include freight consolidation, returnable container management, cross-docking, sequencing, part storage and processing, and more.
